

Electric | Fires & Stoves

A WARM WELCOME

It's never been easier to get the warm inviting atmosphere of a real flame fire with all the convenience, versatility and efficiency of electricity.

Using the latest Flame-Effect Technology, Gazco has created a beautiful range of fires and stoves that provide a versatile and stunning focal point for any home – and all without the need for a chimney!

Whether you want to achieve a modern, contemporary look or a more classic, traditional interior, this brochure will help you make the perfect choice, whatever your style or budget.

GAZCO

Fire Your Imagination

THE GAZCO PEDIGREE

When you choose Gazco, quality and technology are assured. From contemporary hang on the wall fires to traditional stoves, Gazco are committed to creating the ultimate in realistic electric flame effects.

Our research and development laboratories are amongst the most advanced in the industry, ensuring that the very latest innovations are incorporated into our products.

Gazco is part of the Stovax Group who offer a prestigious product range including everything from the traditional to the ultra-contemporary in a wide array of styles and sizes. Whether your choice is solid fuel, gas, or electric you can be sure to find a stove or fireplace from our range that will add warmth and character to your home. Both Gazco and Stovax offer solid fuel and gas versions of several of the fires and stoves in this brochure. Full details of the Stovax Group's range of products can be found at www.stovax.com

Gazco is an ISO9001 accredited company. Our rigorous quality control system ensures that all our appliances comply with British Safety Standards as well as stringent European regulations. All fires and stoves in the brochure are CE marked. This means they have been independently tested to exacting European standards.

Warranty Information

Your Gazco retailer will provide you with a Two Year Extended Warranty for your new electric stove or fire, providing it is registered with Gazco. Please note, this warranty excludes certain consumable parts. Stoves and Fires purchased outside of Gazco's Expert Retailer Network will carry a standard One Year Warranty. Full warranty details, terms and conditions are available at www.gazco.com.

EXPERT RETAILER NETWORK

We take great care to ensure that our stoves and fires are designed, tested and manufactured to the highest possible quality and safety standards. We are just as concerned to make certain that they are sold and installed correctly so that you will enjoy years of pleasure from your purchase.

Accordingly, you will find our products are only available from experienced, independent retailers who will be happy to show you a selection of models locally in their showrooms, often fully operational. These independent retailers will discuss your individual requirements both technical (such as sizing the heat output to your room) and design, to ensure that you select the most appropriate product for your home. They will also be able to advise on, or assist with, the installation process as well as help provide any after-sales support and servicing your appliance may require in the future.

Whilst we encourage our retailers to promote fireplace products and their outlets via the internet, we do not believe suitable levels of customer care and satisfaction can be obtained from purchasing the product only online and we would strongly recommend that you consider this when undertaking your research and making a purchasing decision. Furthermore, please be aware that we do not offer technical support (beyond our statutory responsibilities) to products bought via nationwide online sales, where this support would normally be offered by one of our qualified, independent retailers.

In addition, Gazco fires and stoves purchased from within our Expert Retailer Network will have the additional benefit of an extended warranty period, subject to terms and conditions. Full details can be found at www.gazco.com.

VERIFLAME™ TECHNOLOGY

Gazco's VeriFlame™ Technology enables you to switch between heat settings and even adjust the brightness of the flames to create the atmosphere you desire with the remote control.

STUDIO ELECTRIC SIZES

The outstanding Studio Electric range is available in a choice of three sizes including a portrait option. With their simple 'hang on the wall' installation and a choice of contemporary styles, these designer electric fires can add stylish warmth to almost any room in your home. All Studio Electric fires benefit from remote operation and feature an additional thermostatic control.

Studio 1

The highly efficient Studio 1 is the most compact landscape model in the range, making it the perfect choice for adding a dramatic focal point to a smaller interior. As with all Gazco Electric fires, you can tailor the atmosphere to suit your mood or occasion. The Studio 1 lets you vary the heat output between 0.9kW or 1.8kW, as well as allowing you to enjoy the flame effect without any heat at all.

Studio 1

Studio 2

For effortless style and maximum impact, opt for a Studio 2 Electric fire. The larger dimensions make for an eye-catching focal point and accentuate the highly realistic LED flame effect. The Studio's remote provides complete control over the heat and flame settings from your fingertips. With a variable heat output between 0.9kW or 1.8kW, and the option of the flame effect without the heat, the Studio 2 offers complete versatility for your home.

Studio 2

Studio 22

The Studio 22 adds instant vertical presence to any modern interior. With its unusual yet highly attractive portrait form, the Studio 22 Electric is perfect for the contemporary living room but equally capable of making a designer statement in the study or office. On milder evenings, just sit back and enjoy the flickering flames without the heat or bring some cosy warmth to your room with a variable 0.45kW - 0.90kW heat output.

Studio 22

Studio Electric sizes shown with Verve frame

STUDIO ELECTRIC GLASS

Sleek, chic and contemporary, the Studio Electric Glass offers a distinctive focal point that complements any interior. Available in three sizes, this striking frame offers instant impact, whatever your room size.

Easy to fit, this designer fire can simply be hung on the wall. Its shallow depth means it will only protrude minimally into your room.

A stunning flame-effect with four levels of brightness is available at the touch of a button on your remote control. You can alter the heat output to suit your requirements, or you can even enjoy the stunning LED flame-effects with no heat at all!

Gazco's range of Studio Electric Fires has also been uniquely developed so that the fan operation controls both the heat output and flame-effect simultaneously, making it one of the quietest fan-assisted electric fires available.

STUDIO ELECTRIC VERVE

Studio Electric 22 Verve in Ivory

Studio Electric 1 Verve in Metallic Red

*Studio Electric 22 Verve in Graphite
(shown without White Stones)*

The stylish Studio Electric Verve has a beautifully curved frame in a choice of three stylish finishes, making a striking designer statement that can be appreciated from all angles. Whether it's a luxurious living room or a stylish study, the hang-on-the-wall Studio Electric Verve is incredibly versatile with two landscape sizes and a portrait option to choose from.

This designer fire heats your room on command from your remote control. With two adjustable heat settings and four flame brightness levels, you can create the perfect atmosphere for every situation. Simply plug in your Studio Electric Verve and instantly enjoy the inviting glow created by our unique LED flame-effect technology.

The Studio Electric Verve comes with a removable White Stone fuel bed effect, giving you even more styling options.

RIVA 2 670 DESIGNIO2 GLASS

Riva2 670 Electric Designio2 Glass

Riva2 670 Electric Designio2 Glass

The Designio2 Glass' reflective black surfaces and subtle detailing perfectly complement this stylish electric fire. Offering chic, contemporary styling this mesmerising fire and frame choice creates an eye-catching centrepiece that can suit a wide range of interiors.

For a streamlined aesthetic, the Riva2 670 Electric can be slotted into a pre-constructed hole. Alternatively you can use the optional wall mounting box to hang your fire on a flat wall. The versatile Designio2 frame also allows the 670 Electric to be hearth mounted for a more traditional fireplace setting.

ELECTRIC INSET FIRE SIZES

Studio Electric Inset 80

It's hard not to warm to the landscape form of the Studio Inset 80. This fire provides all the dramatic presence of a cassette fire, with the proportions to suit small to medium rooms. Created using the latest technology, the Studio Electric Inset 80 has two heat settings from 1 – 2kW and variable LED flame brightness settings. All of its features are easily controlled from the comfort of your sofa, using the remote control.

Studio Electric Inset 105

The longer lines of the Studio Inset 105 make a stylish designer statement in any interior. The Studio Inset 105 has two heat settings, from 1–2kW and benefits from a beautiful LED flame effect, all controlled by the easy to use remote. With no need for a chimney, the Gazco Electric fire ranges can be used to add contemporary style to almost any room in your house.

Studio Electric Inset 150

The Studio Electric Inset 150 is the biggest landscape fire in the range and therefore more suited to larger interiors. The 1-2kW heat settings, LED flame-effect and variable brightness levels are all controlled directly from your remote so you can just sit back and appreciate this stunning fire with complete ease. With its grand proportions and stunning frameless design, the Studio Electric Inset 150 makes a truly impressive statement.

Riva2 Electric 55

The Riva2 Electric 55 has a striking square design and a flame visual to match. Designed with a stunning LED flame-effect, variable brightness and 0.5kW - 1.0kW heat settings, the Riva2 Electric 55 blends form and function, controlling it all with the remote included.

Riva2 Electric 70

The Riva2 Electric 70 has a sleek and contemporary virtually square format to extend your possibilities. The frameless design emphasises the highly realistic flame effect which has variable brightness levels.

The Riva2 Electric 70 also benefits from being compatible with Gazco's exquisite collection of Natural Stone Mantels.

STUDIO ELECTRIC INSET

The Studio Electric Inset's frameless design creates a strikingly contemporary and minimalist look. Available in three different sizes and installed completely flush with the wall, the Studio Electric Inset has the versatility to complement a wide range of stylish room designs.

Relax in your favourite arm chair and enjoy heat at the touch of a button. Designed for ultimate ease of use, you can control everything from the remote control included. With two heat settings from 1 - 2kW, the Studio Electric Inset fires also benefit from variable LED flame-effects and brightness to suit your mood or ambiance.

On warmer evenings you can enjoy the fire without any additional warmth as the LED flame effect can be cleverly operated independently of the heater.

RIVA2 ELECTRIC INSET

Creating an impressive focal point in any setting, the Riva2 Electric range offers captivating flame-effects in a choice of sizes to suit a range of interiors.

Featuring one touch heat, two adjustable heat settings and variable brightness, the Riva2 is so versatile that you can create a bespoke atmosphere for any occasion. Alternatively, you can switch off the heat and simply enjoy the authentic atmosphere created by our unique LED flame-effect technology.

You can further increase your design possibilities by pairing your Riva2 Electric 70 with a selection of timeless Riva2 Natural Stone Mantels as shown on pages 28 - 29.

RIVA 2 ELECTRIC STONE MANTELS

For sheer elegance and ultimate sophistication, you can combine your Riva2 Electric 70 fire with one of Gazco’s beautiful natural stone mantels. There are six designs to suit both traditional and modern decorative styles, each available in either the clean look of antique white marble or the gentle warmth of natural limestone.

A Riva2 Electric stone mantel provides you with the highest levels of aesthetic and tactile appeal from the hand-finished craftsmanship that goes into each and every one.

Mantel Styles	Dimensions w x h (mm) [†]
Claremont	1555 x 1143
Cavendish Bolection	1460 x 1320
Georgian Roundel	1460 x 1082

LOGIC2 ELECTRIC FIRES

Featuring advanced LED technology, the Logic2 Electric Inset fire range offers captivating, life-like flame visuals for instant fireside ambience. Designed to fit easily into a standard fireplace opening, 3" rebated mantel with slip or simply against a flat wall using the optional spacer frame, this versatile fire can be enjoyed in almost any interior setting.

The Logic2 features various LED flame effects including deep amber, cool blue or a combination of the two (see page 32). Using the handset that gives you full control over the fire's features, the Logic2's flames can be set to five brightness settings and can also be displayed with or without the heat if desired.

The Logic2's Programmable Thermostatic remote control also offers a number of convenient options, including Daily and Weekly scheduling. For more information see page 48.

These stylish electric fires come complete with three easily interchangeable fuel beds which each add a unique aesthetic. The log arrangement creates a traditional woodburning look, or switch to either white and clear stones or grey pebbles for a strikingly contemporary aesthetics.

The versatile Logic2 has a choice of modern and traditionally styled frames and fronts (shown on the following pages) that allow you to customise your fire to suit your home.

VISION ELECTRIC

Vision Midi Electric on Riva 45 Low Bench

Vision Medium Electric

Vision Small Electric on Riva 100 High Bench

The Vision is a contemporary, electric stove that comes in three sizes: Small, Midi and Medium; each sporting a highly reflective black glass door, integral glass plinth, black glass top plate and contrasting stainless steel detailing for a clean stylish look.

Incorporating an eye-catching flame effect created using Gazco's unique Veriflame™ technology, the Vision's alluring visuals glow over a realistic hand painted log-effect fuel bed to give all the ambiance and depth of a real log fire.

The three brightness levels can be easily altered at the touch of a button on the remote control* to create a look to suit your mood. Furthermore, each level is available with or without the 1-2kW of heat output, so you can enjoy the ambiance created by your electric stove whatever the season!

To increase your interior design possibilities, you can enhance your Vision by choosing from one of ten stylish Riva Stove Benches as shown on page 52.

*The thermostat is controlled from the stove

REMOTE CONTROLS

PROGRAMMABLE THERMOSTATIC ECO HANDSET

Logic2 fires feature Gazco's Eco remote control. This advanced handset provides complete control over the fire, including flame colours and brightness levels as well as a number of energy saving features.

Daily and weekly heating lets you program your fire to provide heat at certain times of the day or week to suit your lifestyle. Heating cycles can be easily advanced or delayed, if desired, without disrupting scheduling.

Adaptive start control allows the handset to turn on the fire's heating function up to 45 minutes in advance of a scheduled time, ensuring your room is at the right temperature when you want it to be.

Ambient heating control allows you to set the optimum temperature for your room between 15°C and 25°C. The fire will automatically manage heating power to reach the chosen temperature as efficiently as possible. Eco and Boost settings offer further freedom to adjust the temperature by +/-4°C.

Open window detection save's energy by turning off the fire's heat if a sudden drop in room temperature of up to 4°C is detected, such as when a door or window is opened. Heating can be easily resumed by pressing the heat button again or closing the window.

REMOTE CONTROL FOR GAZCO ELECTRIC STOVES AND STUDIO HANG ON THE WALL FIRES

Gazco's VeriFlame™ technology produces a highly realistic fire effect. The complementary remote control allows you to independently adjust the brightness and colour of the flames and fuel bed so you can produce the exact ambience you require, giving you complete flexibility at the touch of a button.

REMOTE CONTROL FOR STUDIO AND RIVA2 ELECTRIC INSET FIRES

Studio Electric Inset and Riva2 Electric Inset fires come with a remote control that lets you easily adjust the fire's two adjustable heat settings and four flame brightness settings, creating the atmosphere you desire.
